READ THE LABEL COMPLETELY BEFORE USING

HAZARD CLASSIFICATIONS
Skin irritation Category 2, Eye irritation Category 2, Skin sensitisation Category 1, Reproductive toxicity Category 2, Specific target organ toxicity (repeated exposure) Category 2, Hazardous to terrestrial vertebrates, Hazardous to the aquatic environment acute Category 1, Hazardous to the aquatic environment chronic Category 1

TOXICITY
- Causes skin irritation.
- Causes serious eye irritation.
- May cause an allergic skin reaction from prolonged skin contact.
- Suspected of damaging fertility or the unborn child from repeated oral exposure
- May cause organ damage from repeated oral exposure at high doses.

ECOTOXICITY
- Very toxic to aquatic organisms and with long lasting effects.
- Do not apply directly onto or into water.
- Avoid contamination of any water supply with product or empty container.
- Harmful to terrestrial vertebrates.
- Take all reasonable steps to ensure that the substance does not cause any significant adverse effects to the environment beyond the application area.

PRECAUTIONS:
- KEEP OUT OF REACH OF CHILDREN.
- When mixing or applying GELSEAL ULTRA SPRAY- ON wear protective clothing such as impervious gloves, waterproof hat and trousers and face protection to avoid contact with skin and eyes, and inhalation of spray mist.
- Do not eat, drink or smoke while using.
- Wash hands and face thoroughly after use and before eating or drinking.
- The maximum amount of GELSEAL ULTRA SPRAY- ON that can be transported on a passenger vehicle is 1 litre per package.
- If 3kg or more is applied in 24 hours in a place where the product is likely to enter air or water and leave the application area, a written record is to be kept of each application.

STORAGE
- Store in original container, tightly closed and in a locked, dry, cool, well ventilated area away from foodstuffs, feeds, seeds, fertilisers, insecticides, or fungicides used for the protection of crops.
- Storage must be in accordance with the current version of NZS 8409 Management of Agrichemicals. Stores containing 100L or more require signage, secondary containment and an emergency response plan.
- This product has a shelf life of 2 years.

SPILLAGE
- Contain and collect spillage. Wear appropriate protective clothing and prevent material from entering waterways. Absorb spills with inert material and place in waste container. Wash area with water and absorb with further inert material. Dispose of waste safely (such as a suitable landfill).

DISPOSAL
- **Container Disposal:** Triple rinse empty container and add rinsate to spray tank. Make sure the container is empty and recycle if possible. Alternatively burn in an appropriate incinerator if circumstances such as wind direction permit.

Otherwise crush or puncture and bury in a suitable landfill.

Do not use the empty container for any other purpose.

- **Product Disposal:** Dispose of this product only by using according to the label or at an approved landfill or other approved facility.

Registered pursuant to the ACVM Act 1997, No P9046
See **www.foodsafety.govt.nz** for registration conditions.

Approved pursuant to the HSNO Act 1996, Approval code HSR101006

See www.epa.govt.nz for approval controls.

QUALIFIED HANDLER: A suitably qualified handler is required when mixing, loading or applying this product.

DIRECTIONS FOR USE
Mode of action: GELSEAL ULTRA SPRAY-ON is designed to protect pruning wounds from fungal invasion by giving the host time to develop internal barriers to pathogen invasion. Boric acid inhibits the maturation of fungi by preventing spore formation.
Tebuconazole is a DMI-Triazole which acts curatively by inhibiting the creation of sterols in fungal cell walls. Octhilinone is thought to inhibit fungal DNA/RNA synthesis.

RESISTANCE MANAGEMENT
GELSEAL ULTRA SPRAY-ON contains the Group 3 Fungicide Tebuconazole (Triazole DMI).

Resistance to this fungicide could develop from excessive use. To minimise this risk use strictly in accordance with the label instructions and resistance management strategies that exist for any fungal species listed on this label.

Do not use another product containing a fungicide in the same group in conjunction with GELSEAL ULTRA SPRAY-ON.

For further information see www.resistance.nzpps.org.

APPLICATION
General:
- Apply GELSEAL ULTRA SPRAY-ON only to pruning wounds made during the dormant period before the commencement of sap flow.
- Do not apply GELSEAL ULTRA SPRAY-ON to grape crops during the fruit bearing stage of the season.

GELSEAL ULTRA SPRAY-ON is applied by spray application and is rapidly absorbed within one hour of application so rainfall following application is not critical.
Diseases controlled by pruning wound protection include:
Eutypa dieback of grape vines *Eutypa lata*.

Application Rate
For spray application to pruning wounds on grape vines, apply GELSEAL ULTRA SPRAY- ON at the dosage rate of 60 ml/100 litres in up to 580 litres of water / ha (GELSEAL ULTRA SPRAY- ON 348 ml / hectare)

Ensure spray nozzles are directed at the pruned areas of the vine to ensure complete coverage of pruning wounds.

For back pack or knapsack sprayers, apply GELSEAL ULTRA SPRAY- ON at a dosage rate of 6 ml per 10 litres of water directed at pruning wounds. Ensure complete coverage of all pruning wounds.

NOTE
1. A maximum of 348ml per hectare of GELSEAL ULTRA SPRAY- ON may be applied once a year.
2. GELSEAL ULTRA SPRAY- ON may only be applied using ground based methods of application.

Withholding Period
It is an offence for users of this product to cause residues exceeding the relevant MRL in the Food Notice: Maximum Residue Levels for Agricultural Compounds.

Grape vines - Dormant spray only.

Grazing animals in treated vineyards - Where sheep are grazed in vineyards sprayed with GELSEAL ULTRA SPRAY-ON, a 2 month slaughter withholding period must be observed after the sheep have been removed from the vineyard.

It is an offence to use this product on animals.

FIRST AID
If exposed or concerned, or you feel unwell, get medical advice. Contact the National Poisons Centre 0800 POISON (0800 764 766) or a doctor. If swallowed, do not induce vomiting. Rinse mouth. If on skin, wash with plenty of soap and water. If irritation or rash occurs, get medical advice. If inhaled, move the victim to fresh air and keep at rest in position comfortable for breathing. If in eyes, rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to so. Continue rinsing. If irritation persists, get medical advice.

CONDITIONS OF SUPPLY- Read before buying and using. If these conditions are unacceptable, return at once to the retailer unopened within seven days and the purchase price will be refunded in full.
This product is of a high grade and conforms to the chemical description on the label.
